## WORK EXPERIENCE

**SOFTWARE DEVELOPER (TESTING TEAM)**
MINISTRY OF CHILDREN, COMMUNITY AND SOCIAL SERVICES
JAN 2021 - AUG 2021

- Collaborated with a large team to test web platform used by social workers across Ontario
- Found numerous bugs affecting the platform
- Worked efficiently and independently to meet testing deadlines and requirements

## PROJECTS

**PORTFOLIO WEBSITE**
GITHUB.COM/ANTONIO-BENNETT/PERSONAL-WEBSITE

- Developed using modern technologies such as svelte, typescript and tailwindcss
- Developed with a modern feel with fun and elegant animations
- Designed to respect system dark mode settings and also has manual dark mode toggle
- Blog powered by Hashnode connected subdomain

**STATIC SITE GENERATOR - RSSG**
GITHUB.COM/ANTONIO-BENNETT/RSSG

- CLI program that converts text or markdown files to valid HTML
- Developed using Rust which offers first-class memory safety
- Able to recursively convert directories which enable converting files in nested directories

**IPROPER**
GITHUB.COM/IPROPER/IPROPER

- Mobile application that allows landlords and tenants to communicate and manage the property and pay rent
- Developed using React Native, Firebase, MongoDB, GraphQL, Express, SocketIo and Stripe API
- Authentication is valued and done via JWT tokens
- Developed in a group which helped to improve collaboration skills
- Lead the backend development
